

Collin Cavallo

Front-End Web Developer | UI/UX Designer

713-301-5918 | Collincavallo@gmail.com | <https://www.linkedin.com/in/collin-cavallo/>
<https://github.com/CollinPCavallo>

UI/UX Designer with a broad understanding of the full MERN stack. Experienced in management, customer service, and project management. Powerful public speaker. Built multiple projects from mockup to deployment. Particularly interested in design using Illustrator and Invision.

Core Competencies

JavaScript | ES6 | HTML5 | CSS3 | Foundation | Materialize | Semantic-UI
Illustrator | Node.js | Express | Bootstrap4 | jQuery | GIT | GitHub | RESTful APIs | JSON | AJAX | ReactJS
React Router | Redux | Angular4 | MongoDB | MySQL | SASS | Heroku

Deployed Applications

Indecision App *Full-Stack Developer*

<https://github.com/CollinPCavallo/Indecision-App>

One-week project: Web application that allows the user to enter various options, and have one option selected at random. Built independently using React, Sass, Babel.

Chat App *Full Stack Developer*

<https://github.com/CollinPCavallo/chat-app>

<https://sheltered-ocean-15868.herokuapp.com/>

One-week project: Web application that allows users to join chat rooms, enter a username, and chat with other users in the same room. Built independently using Node, Express, Socket.IO, jQuery, and CSS.

SoundsLike *Full Stack Developer*

<https://github.com/CollinPCavallo/ProjectSoundsLike>

<https://collinpcavallo.github.io/ProjectSoundsLike/>

Two-week project: Web application that allows users to find artists and songs similar to searched artists. Personally responsible for the full-stack integration of APIs.

Liqr *Front-End Developer*

<https://github.com/MarQG/liQr-App>

<https://secret-stream-53915.herokuapp.com>

Three-week project: Beverage-themed social app lets users vote and chat about favorite drinks. Personally responsible for the full-stack integration of custom APIs, MongoDB, and EJS.

Deployed Applications (con't)

Snippitz *Front-End Developer*

<https://github.com/CollinPCavallo/project3>

<https://snippitz.herokuapp.com/>

Three-week project: Coding tutorial online dashboard. Allows users to post tutorials on code techniques and tips. Personally responsible for UI/UX, utilizing SASS and Angular 4.

Work Experience

Trilogy Education Services inc. (Feb 2018 - Current)

Independent Contractor - Academic Tutor

- Tutoring students in Full Stack Development (MERN) at 25 Universities across the United States.
- Manage own Schedule, meetings, expenses and communications with students/Central Support.

University of Texas at Houston (Mar 2018 - Current)

Coding Bootcamp TA - MERN & SERN Stacks

- Helping students understand, overcome, and excel at Full Stack Web Development.
- Technologies taught focus on the MERN and SERN Stack and Computer Science Fundamentals.

Education

University of Texas at Houston Coding Bootcamp (Sep 2017 - Mar 2018)

A intensive 6-month long coding boot camp designed to work on deploying full scale web applications from start to finish. Languages and skills learned were HTML5, CSS3, Javascript, Bootstrap, JQuery, Firebase, Node JS, React Native, React JS, MongoDB, Express, & C#.
